## World Environment Day—June 5, 2022

World Environmental Day is celebrated all over the world on June 5th, 2022. Theme for this year is "Only One Earth" — focussing on living sustainably in harmony with nature. Host Country for the celebration this year is Sweden. Human beings are the only and extremely dangerous polluters of the environment. The activities of humans and hunger for fuel and power have put excessive pressure on the natural resources and the situation is precarious now.

Climate change and global warming are real and it is high time we act. Only drastic and timely action can save our Earth now. Creating awareness among people and politicians is the key.

Our college conducted two programmes on the occasion of World Environment Day 2022—one on June 5th, 2022 at Thimlapura village and the other on 16th June 2022 at our college auditorium.

### Environment Day—Celebration

Environment Day was celebrated in our college on 16-06-2022. The Chief Guests of the programme were Prof. KVS— Shri Sudhakar HG, Ninge Gowda, HoD of Geography, PAC Tiptur and Shri Raghu, Project ORDER, BAIF, Tiptur. Prof. Ninge Gowda talked about the origin and importance of this day. Prof. Raghu G.V. Impressed upon the students to take up the responsibility of conserving, fostering and preserving our environment. The Secretaries of the programme were Shri M.R. Sangamesh and Vice Presidents— Shri Bagepalli Nataraj and Shri Deepak G P, Principal Dr. Chitharanjan Rai, Teaching and non teaching staff of the college and students attended the function.

### Community Service at "Thimlapura"

A community Service of the village. Cleaning programme was conducted at "Thimlapura", a small village 15 km from Tiptur under the auspices of Yuva Red Cross and Eco club of Kalpataru First Grade Science College, Tiptur. Saplings were planted in the Primary school premises, on both sides of main road and also around the main temple.

### AN EYE ON YOUR EYES

"The beauty lies in the eyes of the beholder", they say. But when it comes to 'eye health', India ranks much lower in the list of countries in the world. Due to Indian Government's efforts as of 2019, blindness and visual impairment are reduced by 47% and 52% respectively. In Karnataka, there are about 9.3 lakh blind persons. It is said that most prevalent visual impairment in India is due to Cataract and it is easily curable. But there is no awareness among the people, especially in rural area.

We conducted a free eye health camp at Thimlapura, a small village in Tiptur Taluk. The camp was held with the support of Shri Shivashankar, an Eye specialist with 30 years of experience. More than 50 people from the Thimlapura and surrounding area were examined and given necessary treatment. Some, with serious problems were referred to Eye Clinics of Tiptur and Bangalore.
